NATURE TOUR

Arrival or departure via our modern-top of the line-**Aerial Tram**, each cabin was designed with automatic opening and closing systems, offering absolute safety and security for our visitors. Our gondolas have a ventilation system designed for tropical climates, keeping visitors in total comfort. **Turu Ba Ri Aerial Tram** is 620 meters long, reaching a maximum height of 80 meters, providing a magnificent birds-eye-view of our special Tropical Forest. Duration per gondola: 15 to 20 minutes. Park Attractions includes: **Indian Trail** with primary forest and giant centuries-old trees, **Orchid & Bromeliad Gardens**, **Countryman's Farm** offering a glance to our ancestors' culture and lifestyle, **Hibiscus Labyrinth**, **Cactus Collection**, **crocodiles pound**, **butterflies farm** among many others.

TURU BA RI CANOPY TOUR

Our canopy tour boasts two options. The first is called the **Turu Ba Ri canopy** and is 4.910 feet long, spread out over 7 cables, 12 platforms and one tower. It lasts approximately one hour. The second option is for more daring individuals. The **pure adrenaline canopy** with the modality: "Tarzan Swing". The entire tour takes about two hours. Whichever of the two options that our visitors prefer, they will have the opportunity to walk along three hanging bridges and several trails in the mountain. The tours finish in our garden after running the last cable, which measures 2.135 feet long. It is important to repeat that these adventures have been designed with safety in mind. As such, our guides are highly trained in this type of activity. Additionally, the canopy's structure has a special kind of braking system which allows braking if the visitor has an inconvenient with it, without any effort; the guides can do it for him/her. All of the above make the **Turu Ba Ri** canopy tour the longest and safest one for adrenaline and adventure lovers. Visitors will have an unforgettable experience under the strictest safety and quality guidelines. The time it takes to do the tour varies according to the number of people who do it. We can handle groups of up to 30 persons.

SENSATIONAL CABLE

Measuring 0, 62 mile long and with a maximum height of 311, 68 feet, guests will reach a top speed of 55 miles per hour. The trip lasts an average of one minute. This adventure deserves its name, and the experience of doing it really cannot be explained. It's like a Superman-style zip line, allowing you to fly over the forest. One thing is certain: you will love it. **THIS ADVENTURE IS UNIQUE IN THIS CONTINENT!**

HORSEBARK RIDING

Measuring 2,540 meters and lasting between 45 minutes and one hour, this is a great alternative for those who like unite ecology with adventure. During this trip, guides will offer an expert interpretation of everything observed during the journey. For example, they'll point out the differences in forests according to the level of plant development, as well as general explanations about the flora and fauna that can be observed. It is important to mention that even children can participate in this tour as our horses are trained to offer the safety, peace of mind and comfort that our guests deserve.
