

Arenal One night two days (Overnight Package)

The Arenal Volcano is one of the most active volcanoes in America. From our point of view we think that this experience is unforgettable because of the amazing and surprising things like feeling the tremble ground and seeing the nightly sky exploded with ash and lava in a natural firework. Next, we will visit the hot springs of the volcano, where you can relax in the soothing waters and be caressed by the cool night air, while observing the stars and the incredible sky above the volcano.

Day 1 (D)

Meet and Greet by Tucan Limo Staff
